Woman Trouble

8Bit Rockers

Woman trouble always in my life
Got a babe, but she'll never be my wife
'Cause I know baby, yes I know
When she got you, man you're never letting go
You see her in the street with the sparkling eyes
Don't forget that she knows how to cry
'Cause you know, yeah yeah, yes, I know
When she got you, man you're never letting go
She says, baby, that we'll never fight
I know I'm gonna treat you right
You won't be lonely, this I know

There's a time when women have got to go
Woman trouble always on my mind
My kind of woman I'll never find
'Cause I know baby, yes I know
When she got you, man you'll never let her go
Yeah
Woman trouble always in my life
Got a babe, but she'll never be my wife
'Cause I know baby, yes, I know
When they got you, man they're never letting go
