Leave Me Be

Spectrals

Different colors and different atmospheres
Time passes on throughout the years
Different people with different points of view
I think of me, I think of you
If you think I don't mean it, if think that I need you
If you think that I'm joking why don't you just leave me be
And if you think that I'm joking
'Cos you mean nothing to me
I wander up, I wander down
I find it hard you being around
If you think I don't mean it, if think that I need you
If you think that I'm joking why don't you just leave me be
And if you think that I'm joking
'Cos you mean nothing to me
If you think that I'm joking why don't you just leave me be
And if you think that I'm joking
'Cos you mean nothing to me
If you think that I'm joking why don't you just leave me be
And if you think that I'm joking
'Cos you mean nothing to me
Why don't you just leave me be?
