

Come Clean

BMX Bandits

All in a day, all in a day, I am without you

Just yesterday I was on top of my game with you

Then I should say, when you were away I think I knew

 But I refused, I refused to see

 Why did you never come clean with me?

 Why did you never come clean with me?

 In the moment you've erased

 My ability to hate

 You were at it again

 Welcome to my new place

 Take advantage of my grace

 We're at it again, my love

 This is not so innocent

 This is not what I had planned

 I think I should be going

 Why did you never come clean with me?

 Why did you never come clean?

 So explain to me yesterday

 What of all those things you say?

 Damn, we're at it again

 Welcome to my new place

 Take advantage of your space

 We're at it again

 This is not so innocent

 This is not what I had planned

 Why did you never come clean with me?

 Why did you never come clean with me?
