Waiting

Strife

Reach back and release the power held in each
The tools of knowledge we have received
Our youth removed stripped of verity
But a voice is crying out and we'll take it back...
We'll take it back
Take back our hopes our dreams
All within the reach of those who believe in what can be
In faith I wait
I'll do what it takes
My voice is still crying out
And we'll take it back...
We'll take it back...
Waiting...
Waiting
I'll fucking hope
I'll fucking dream
I'll fucking believe
But I'm still...waiting
Waiting
I'll see the ascension of this disease
Am I alone in my dream
I'm still waiting
Waiting
Waiting
I will wait
