

Lose You Too Soon

Zeroes

You say it's over
But you'll get over it
What you say versus what you do
Versus what you say versus what you do You say you're leaving
I almost believe you
What you say versus what you do
Versus what you say versus what you do Gotta keep my head and my heart in line
Gotta keep my head and my heart in line 'Cause I don't want to lose you
Too soon (X2) You say you're leaving
I almost believe you
What you say versus what you do
Versus what you say versus what you do "And I don't love you
I don't love you"
What you say versus what you do
Versus what you say versus what you do Gotta keep my head and my heart in line
Keep my head and my heart in line
Gotta keep my head and my heart in line
Keep my head and my heart in line 'Cause I don't want to lose you
Too soon (X2) It's too soon to tell
It's too late to wait
It's too early to go
And it's too late to stay (X2) 'Cause I don't want to lose you
Too soon (X2) Too soon (X2)
