

# Heat Seeking Ghost Of Sex

## Dance Gavin Dance

(I'm a horrible shot I tie a horrible knot)  
(I pushed a bunch of little people over once)  
(Well a rest is best when you stress a test)  
(And you forget all about your aching ass)  
(I'm a horrible shot I tie a horrible knot)  
(I muck ace a lot, I'm gonna pace the lot)  
(Dont be tardy for my leaky Barbie tv party pee in the park)Well I can't believe, you're better off alone  
You stood missed own  
And I can't believe, I'm better than you know  
I felt the rush of no controlAnd it feels so good, and it feels so good, it feels so nice  
Now turn your back, cause I'm coming right up on you  
Turn your back, cause I'm gonna be all up on you(Placing a bet, my odds are you and me zero)  
(Being a vet, I know that you are too fearful)  
(Placing a bet, my odds are you and me zero)  
(We can regret, all the things we could be doing instead)(Im peeling into the house)  
(Gotta run to the basement)  
(Gotta establish a connection before I get impatient)  
(Im no contortionist man, Ill steal the lips off your eyes)  
(But anyone who really matters got a call from my guy)I can't believe, I can't believe that I can't breathe  
I can't believe, I can't believe that I didn't see  
See the smoke in my eyes, feel the pain in my lungs now go  
See the smoke in my eyes, feel the pain in my lungs now go(Reset this best of four I know)  
(Youve been waiting by the telephone I know)  
(But its not how or why I lie)  
(You think I wanna be a mediocre guy)See the cracks in my skin, feel the ground on my feet, now go  
See the cracks in my skin, feel the ground on my feet, now go  
I know one girl that's not gonna get home tonight  
I know one girl that's not gonna get homeHeat seeking ghost of sex  
Dont pay attention to my mild case of blow tourettes  
Whaaaat  
I probably place a bet, took your missing tooth  
Theres no people left in line for your kissing booth  
I always knew all of the things that you thought you think  
Twice times Ill probably tell you that your gods a geek  
Point and glide till your ostracized  
Then pile patents on my beak cause right now its innovation week(Innovation, innovation, innovation  
week)Well I can't believe, you're better off alone  
You stood missed own  
And I can't believe, I'm better than you know

It feels so good Now turn your back, cause I'm coming right up on you  
Turn your back, cause I'm gonna be all up on you (Placing a bet, my odds are you and me zero)  
(Being a vet, I know that you are too fearful)  
(Placing a bet, my odds are you and me zero)  
(We can regret, all the things we could be doing instead)
