

When I Change Your Mind

Cherry Poppin' Daddies

Every thing's gonna be nice and sweet
When I come sweep you off your feet
You won't think I'm such a creep
When I change your mind I was nice and you were cold
You were bored when I was bold
I just want my jellies rolled
When I change your mind You don't want me
At least not in that way
You don't want me
And that drives me crazy Your ignorin' hurts my pride
Don't you want my pleasure ride
I've got to have you by my side
When I change your mind Now, my foolish heart sure don't skip a beat
When you haul your tired ass across the street
I'd sell my soul for an airplane seat
Now, that I changed your mind You don't want me
At least not in that way
You don't want me
And that drives me crazy Cherry poppin' daddy
Don't you blow your top, yeah
