I Can Get By

Clint Black

In a simple life dreams die hard
You never let let 'em go
All the while you play your hards
And you may never know
Why it's always lady luck
On someone elses' palm they read
You holding my two hands
Is really all I needChorus:
I can get by if it all fell through
Right down to the bottom of my list
I can get by lookin' back on life
Find that I've too many things I've missed
I can get by without doing
All the crazy things some people do
But I wouldn't wanna try even
Barely gettin' by without youMany things I've come to need
That I could do without
And many more I''ve done with out
I could come to need
The one thing that I'd fight to keep
Until my days are through
Is when I lay me down to sleep
I'm lyin' next to youRepeat ChorusI can get by if it all fell through
Right down to the bottom of my list
I can get by lookin' back on life
Finding I've too many things I''ve missed
Barely gettin' by without youRepeat Chorus
JP
