That's the way of the world
What you waiting for?
She has to be loved
Everybody needs somebodyTell me secrets
Tell me your secret
Tell me what it's all to feel
Tell me 'bout realityTell me secrets
Tell me sweet secrets
What do you know?
What do you know?
What do you know about me?
Take me to the other sideThat's the way of the world
What you waiting for?
She has to be loved
Everybody needs somebodySee my face just once again
Watch me fall for you once more
Watch me feel just like before
Running for my lifeTell me secrets
Tell me sweet secrets
What do you know?
What do you know?
What do you know about me?
Take me to the other side, walk the lineThat's the way of the world
What you waiting for?
She has to be loved
Everybody needs somebodyThat's the way of the world
(That's the way of the world)
What you waiting for?
(What you waiting for?)She has to be loved
(She has to be loved)
Everybody needs somebodyWhy not running out?
I did not know
Why call?
Watch me fallTell me secrets
Tell me sweet secrets
What do you know?
What do you know?
What do you know about me?
Take me to the other side, walk the lineThat's the way of the world

(That's the way of the world)
What you waiting for?
(What you waiting for?)She has to be loved
(She has to be loved)
Everybody needs somebodyThat's the way of the world
(That's the way of the world)
What you waiting for?
(What you waiting for?)
She has to be loved
Everybody needs somebody
