

Stay Wide Awake

Eminem

Yeah, yeah, follow me
Come with me to the dark side of the force
No man would boldly go to this place
The devil only knows of this world
So dark and oh so cold, it's all so cold, all so cold, oh
Soon as my flow starts, I compose art like the ghost of
Mozart
Even though they all say that they're real, I know that most aren't
Boy, you think you're clever, don't ya? Girl, you think you're so smart
Come with me to another side in a world so cold and so dark
A world so dark, a world so cold
A world where only some will go
But not return, when will they learn?
Where do they go? God only knows
Stay wide awake
Fe fi fo fum, I think I smell the scent of a placenta
I enter Central Park, it's dark, it's winter in December
I see my target, put my car in park and approach a tender
Young girl by the name of Brenda and I pretend to befriend her
Sit down beside her like a spider
Hi there, girl, you mighta heard of me before
See whore, you're the kinda girl that I'da
Assault and rape and figure why not try to make your pussy wider
Fuck you with an umbrella, then open it up while that shit's inside ya
I'm the kinda guy that's mild but I might
flip and get a little bit wilder
Impregnate a lesbian, yeah, and now let's see her have triplets and I'll
Disintegrate them babies soon as they're out her with formaldehyde in cyanide, girl, you can try and hide, you
can try to scream louder
No need for no gun powder that only takes all the fun outta
Murderin' I'd rather go vin-vin and now you see just how the
Fuck I do just what I do when I cut right through your scalp uh
Shit, wait a minute, I mean skull, my knife seems dull
Pull another one out, ooh
Soon as my flow starts, I compose art like the ghost of Mozart
Even though they all say that they're real, I know that most aren't
Boy, you think you're clever, don't ya? Girl, you think you're so smart
Come with me to another side in a world so cold and so dark
A world so dark, a world so cold
A world where only some will go
But not return, when will they learn?
Where do they go? God only knows
Stay wide awake
So dark and so cold, my friends don't know this other side of me
There's a monster inside of me, it's quite ugly and it frightens me
But they can't see what I can see, there's a vacancy in my tummy
It's makin' me play hide and seek like Jason, I'm so hungry
She's naked, see no privacy but I can see she wants
me

So patient see, I try to be, but gee, why does she taunt me?
Close the drapes and she goes right to sleep
And I creep right through the front seat
So blatantly but silently 'cause I know that she's sound asleep
Who's wakin' me so violently and why's he on
top of me?
"He's rapin' me", she tries to scream
"Somebody please get him off me"
He's tapin' me, he's bitin' me, he's laughin' like it's funny"
She's scrapin' me, she's fightin' me
She's scratchin' like some dumb freak
Escapin' me, no die, you see I might just be Ted Bundy
Or Satan, gee, what a sight to see, I'm dancin' in my red panties
I'm crazy but it's alright with me, man, life can be so empty
Stay away from me 'cause I'm dancin' to quite a different drum beat
Soon as my flow starts, I compose art like
the ghost of Mozart
Even though they all say that they're real, I know that most aren't
Boy, you think you're clever, don't ya? Girl, you think you're so smart
Come with me to another side in a world so cold and so dark
A world so dark, a world so cold
A world where only some will go
But not return, when will they learn?
Where do they go? God only knows
Stay wide awake
Better try to stay wide awake
Or you might end up found dead by the lake
Soon as you lay me down to sleep, bitch your soul, I'ma try to take
Pray for light today, right away, why do they try to fight today?
I must make them pay twice as much
Might as well put the knife away
Now I use power tools, how about now while you in the shower?
Scour you for six hours till outage of power outlets
How did you figure out I was down in your basement now ya,
Must've just heard the sound
Of my stomach growlin' from down there
Prouder, there's no one fouler
Bound ya that's how they found ya' face down in the tub
I drowned you with piles of downers around ya
Such nostalgia and power, such prowess, look how you cower
Jump out on you now like I was a Jawa from fuckin' 'Star Wars'
Jaba the hut, be, de, ba, ba, be, de, ba, ba, it's
time to die, die
Ought to not even bother to scream, it don't even matter
Amazin' when grazin' skin with these razorblades he waves at ya'
Not your everyday Damien, bathe me in holy water
Nothin' like Son of Sam, so please understand there's no
gun in hand
Where's the thrill in the hunt?
There's no fun in that, here I come with axe
Fun to act like lumberjack, when I'm hackin' 'em up with that
What was that? Dial 911, someone's comin' in from the back
Soon as my flow starts, I compose art like the
ghost of Mozart

Even though they all say that they're real, I know that most aren't
Boy, you think you're clever, don't ya? Girl, you think you're so smart
Come with me to another side in a world so cold and so darkA world so dark, a world so cold
A world where only some will go
But not return, when will they learn?
Where do they go? God only knows
Stay wide awake
