Like You

Gramme

Stay alive, soft, dark and dreamless
Far beneath my nightmares and loneliness
I hate me for breathing without you
I don't want to feel anymore for youGrieving for you, I'm not grieving for you
Nothing real love can't undo
And though I may have lost my way
All paths lead straight to youI long to be like you
Lie cold in the ground like youHalo blinding wall between us
Melt away and leave us alone again
Humming haunted somewhere out there
I believe our love can see us through in deathI long to be like you
Lie cold in the ground like you
There's room inside for two
And I'm not grieving for you
I'm coming for youYou're not alone
No matter what they told you
You're not alone
I'll be right beside you forevermoreI long to be like you, sis
Lie cold in the ground like you did
There's room inside for two
And I'm not grieving for youAnd as we lay in silent bliss
I know you remember meI long to be like you
Lie cold in the ground like you
There's room inside for two
And I'm not grieving for you
I'm coming for you
