

Moments (Radio Edit) [feat. Sam Smith]

Freddy Verano

(Verse)

Moments I make momentarily mine
Are moments I take a step back in time
Each step that I take is leading me to
A time when I felt closer to you
Moments I gain, moments I lose
I'm just gettin' time trying to find
What we had once is left behind
Yet we stand, it slips through our hands (Chorus)

We know we can

We can survive

So like before

That comes here for the light (Verse 2)

Moments we care are little too much

Moments we care are never enough

Claiming to pride, ? high

What we truly feel is pushed to the side
Moments we gain are moments we lose

We're just getting time trying to find

What we had once is left behind

Yet we stand, it slips through our hands (Chorus x2)

We know we can

We control time

So like before

That comes here for the light

I'm just gettin' time trying to find

What we had once is left behind

And here we stand, it slips through our hands
