

# The Lamb Ran Away With the Crown (Remastered)

Judee Sill

Once I heard a serpent remark  
"If you try to evoke the spark  
You can fly through the dark  
With a red midnight raven  
To rule the battleground"  
So I drew my sword and got ready  
But the lamb ran away with the crown  
So I drew my sword and got ready  
but the lamb ran away with the crown  
Tho' the beast within me's a liar  
He made me glow with a strange desire  
And I rode on the fire, with a blue sacred opal  
to bless the battleground  
But I turned to see its reflection  
and the lamb ran away with the crown  
Once a demon lived in my brow  
I screamed and wailed and I cursed out loud  
And I sailed through the clouds on ten crested cardinals  
To guard my battleground  
But I laughed so hard I cried  
And the lamb ran away with the crown  
But I laughed so hard I cried  
And the lamb ran away with the crown
