

# Hard Times

## Living Colour

My head is on fire  
Alone in the dark  
The bed gives no comfort  
I'm falling apart  
My dreams have no answers  
They're only the start  
Don't you come to me with stories  
About your hard times  
You want me to feel sorry  
You got yours  
I got mine  
What good is courage?  
When you're all by yourself  
Would it be easier to be someone else?  
Don't you come to me with stories  
About your hard times  
You want me to feel sorry  
You got yours  
I got mine  
There's no happy ending  
Where things turn out fine  
So stop all your pretending  
You got yours  
I got mine  
There's no happily ever after  
There's no happily ever  
Don't you come to me with stories  
About your hard times  
You want me to feel sorry  
You got yours  
I got mine  
There's no happy ending  
Where things turn out fine  
So stop all your pretending  
You got yours  
I got mine  
I got mine
