

# Morning Sky

## George Baker Selection

You and I were lovers all along  
We had a good thing going strong  
And never doubted  
Lately, I feel changes comin' on  
I know that I will soon be gone  
And you don't even want to talk about it Oh, and it makes me stop and wonder why  
People give their hearts and turn  
Around and say goodbye  
If there's something on your mind  
You better say it while there's time  
'Cause I'm leavin' when I see that morning sky Oh, how did we ever come to this?  
There's nothing for me in your kisses anymore  
Late nights in the kitchen  
I'm pretending I still care  
But we both know there's nothing there  
And you just keep on starin' at the door Oh, and it makes me stop and wonder why  
People give their hearts and turn  
Around and say goodbye  
If there's something on your mind  
You better say it while there's time  
'Cause I'm leavin' when I see that morning sky Oh, and it makes me stop and wonder why  
People give their hearts and turn  
Around and say goodbye  
If there's something on your mind  
You better say it while there's time  
'Cause I'm leavin' when I see that morning sky You and I were lovers all along  
We had a good thing going strong  
And never doubted  
Lately, I feel changes comin' on  
I know that I will soon be gone  
And you don't even want to talk about it Oh, and it makes me stop and wonder why  
People give their hearts and turn  
Around and say goodbye  
If there's something on your mind  
You better say it while there's time  
'Cause I'm leavin' when I see that morning sky  
See that morning sky
