Crack

Peel

(here i' am)
Yeah, I'm goin', goin', goin' far away
I never felt caught up and so astray
I'm turning, turning, turning one last look
To see the sum of all the hits I took (let it go)
It's over, over, when we greet the sun
Yeah, it's over long before we're gone
Tried' to shake, shake the monkey off my back
But I was swallowed by the crack
Hey! it's injected in our veins
Demented river's pouring out
Cracked mirror souls
And would you like to wear my name ?
Wouldn't make a difference anyhow
Cracked mirror souls.....
(how could I)
How could i, could i, could i, be so wrong ?
Worn off all my fears now time has come
I will shake, shake the monkey off my back
We'll all be swallowed by the crack
Hey! it's injected.
