

Eyeball Gore

Iron Reagan

I want to see a blade shoved through your face
See strange fluid all over the place
All we want is eyeball gore right now! I want to see what's under the patch
I want to know what one looks like detached
All we want is eyeball gore right now! Please please
I'll take anything
Make me heave in my mouth today
Please please
I'll take anything I want to see one stuck on a spike
I want to watch one crushed by a bike
All we want is eyeball gore right now! Surgically cut one slowly in half
Violently show one getting stabbed
All we want is eyeball gore right now!
Please please
I'll take anything
Make me heave in my mouth today
