

# Brighter Day

Gungor

At the start there was love  
And life began in Him  
Creation falls, Creator gives  
The promise of a better dayWe are not there yetLet it come, let it come in  
Love is here and love is coming  
Heaven is breaking open  
Heaven is breaking openLove came down and hope was found  
And life began again  
A brand new start  
Yeah, a brand new start  
The promise of a better dayWe are not there yetLet it come, let it come in  
Love is here and love is coming  
Heaven is breaking open  
Heaven is breaking openLove came down and hope was found  
And now we're waking up to a brighter day  
Love came down and hope was found  
And now we're waking up to a brighter dayLove came down and hope was found  
(Oh, brighter day, brighter day)  
And now we're waking up to a brighter dayLove came down and hope was found  
(Oh, brighter day, we'll see a brighter day)  
And now we're waking up to a brighter dayWe are not there yetSo let it come, let it come in  
Love is here and love is coming  
Heaven is breaking open  
Heaven is breaking openLet it come, let it come in  
Love is here and love is coming  
'Cause love I swear has not been spoken  
Heaven is breaking open
