Sun Down

Nik Freitas

Gone on Wednesday
Back on Tuesday
Walk down the stream
And you float away, yeah
Everyday now,
Black is the same now
But for you
You bring back light
And the sun down
Wold be yours now and then
And the rays of light
Will break through winter's night

Gone on Wednesday
Back on Tuesday
Walk down the stream
And you float away, yeah
Everyday now,
Black is the same now
But for you
You bring back light
And the sun down
Wold be yours now and then
And the rays of light
Will break through winter's night
