

You Fight Me

Breaking Benjamin

You fight me, flat on my lonely face I fell
Finding in the end, all is well
In light of the life that I have found
It's coming down I know it isn't real
But it's easy to beat me, suck it up
Life is sink or swim
Love is blinding, no surviving I don't know what I wanna be yet
But I can show that I need to see this
No time for lies and empty fights
I'm on your side Can we live a life of peace and happiness?
I don't think so
And looking I am scared to lose the things I love
I'm in control This is how, this is how it's gonna end
This is how, this is how it's gonna end, end Everyone is waiting here for everyone
Leave me alone This is how, this is how it's gonna end
This is how, this is how it's gonna end
This is how, this is how it's gonna end, no
This is how, this is how it's gonna end, end
