

Don't Dwell

311

Every time I get near your field of gravity
You look so sad to me, tell how could that be?
Ah ah, she said, "Things I obsess
I would never confess"
Ah, ah I told her don't dwell
That will leave you in hell Sometimes things that you're scorned for
You should be adored for
But like I told her don't dwell I know my love that I look dilapidated
But are you glad I made it
Can you tell me that much
Ah ah, why are you surprised I don't take my advice
Ah ah, she told me don't dwell
That will leave you in hell Sometimes I need reminding
Regret is so blinding
But like I told me don't dwell Everything is a choice, go ahead raise your voice
Might as well forgive yourself
That means more than someone else
Set you free, break the shell
To your demons farewell
I tell you don't dwell Everything is a choice, go ahead raise your voice
Might as well forgive yourself
That means more than someone else
Set you free, break the shell
To your demons farewell
I tell you don't dwell
