

# Come Back

## Mishon

One, two, three, four  
Well, after all the times we met  
You said I never was your man  
And though I tried hard to forget  
I never quite could understand  
And when I finally realize  
All the things you meant to me  
You were gone away  
Leaving everything to me  
Won't you come back  
Won't you come back to me?  
Won't you come back  
You mean everything to me  
Won't you come back  
Won't you come back to me?  
Walkin' pass the games we played  
Opening up those unlocked doors  
Remembering all the love we made  
Always wanted to make more  
And if I had it all again  
I'd do it all again for free  
But now you've gone away  
Leaving everything to me  
Won't you come back  
Won't you come back to me?  
Won't you come back  
You mean everything to me  
Won't you come back  
Won't you come back to me?  
You stupid fool, look what you've done  
Now I'm alone, now I'm the one  
You didn't care but only lied  
So here I stand and now I come back, come back to me  
Come back, come, come back to me, oh yeah  
And as the hours turn to years  
I sit here thinking of the days  
I reach to wipe away the tears  
And all the things I want to say  
And as I finally dry my eyes

And as I turn to walk away  
I took my head up to the sky  
Fell then upon my knees and pray  
Won't you come back  
Won't you come back to me?  
Won't you come back  
You mean everything to me  
Won't you come back  
Won't you come back to me?  
Won't you come back  
Won't you come back to me?  
Won't you come back  
You mean everything to me  
Won't you come back  
Won't you come back to me?  
Won't you come back  
Won't you come back to me?  
Oh, won't you come back, won't you  
Won't you come back to  
Oh, won't you come back, won't you  
Won't you come back to me?
