Lovers In Captivity

Ima Robot

I'll be the intoxication
As God
We got more rules
There's no consolation but we'll goWe got cockroach
Count to missions, that's wrong
We got wrought iron
Aggravations and that's howWe're lovers in captivity
Yes, I've her and she has me
Won't you like to come and see
The place that we call home?We're lovers in captivity
We're dying from eternity
Hurry up to come and see
A lovely couple moanDo you remember when
Our sweet desperation was strong?
You were always up
Your sins are an apparition ah, haYou never had much luck
Though the conversation
But can I think it is the time we talk
Emancipation from this homeWe're lovers in captivity
We're dying from eternity
Won't you like to come and see
The place that we call home?We're lovers in captivity
We're comfortable with anything
Hurry up to come and see
The lovely couple moanWe're lovers in captivity
Yes, I've her and she has me
Won't you like to come and see
Our model bungalow?We're lovers in captivity
We're dying from eternity
Ready up kids to come and see
This lovely couple moanBye baby, bye bye, I'm gonna free
Bye baby, bye bye, love's got to be free
Bye baby, bye bye, I'm gonna free
Bye baby, bye bye, love's got to be freeBye baby, bye bye, I'm gonna free
Bye baby, bye bye, love's got to be free
Bye baby, bye bye, I'm gonna free
Bye baby, bye bye, love's got to be freeJust call to say, just call to say
Love you for than rest of life
It's coldest place, some much to say

I'll always be lover in captivity
