

# My Autumn's Done Come

## Hooverphonic

Kiss all the pretty ones goodbye  
Give everyone a penny that cries  
You can throw all my tranquil pills away  
Let my blood pressure go on it's way

Cause my autumn's done come  
My autumn's done come  
Done come

Let those "I don't care" days begin  
I'm tired of holding my stomach in  
No more slinky folk dollars for me  
I'll take Sears & Roebuck dollars gladly

Cause my autumn's done come  
My autumn's done come  
Done come

Bring me water short and Scotch tall  
A big long black cigar, and that ain't all  
Hang me a hammock between two big trees  
And leave me alone, damned! Let me do as I please

Cause my autumn's done come  
My autumn's done come  
Yeah, done come
