

Walking Next to You

Acres

When I feel like I might fall
Underneath the pressure of it all
I think of you,
and it's alrightWhen it's dark beyond the door
and shadows trace my fears across the floor
I look at you,
and I see the lightChorus:
All the inspiration that I need
is when I hear you calling out for me
and I will walk the only road that's true
when I'm walking next to you.When I feel I'm doing this all wrong
and I jumble broken phrases in a song
you know how to speak through meWhen I get tangled up in grief
and the remedies I take
never offer up relief
I talk to you and I am freeAll the inspiration to pull me through
is in the smallest hand I've ever held on to.
And I will walk the only road that's true
when I'm walking next to you.When I feel I can't go on
and it seems a thousand years before the dawn
I reach for you
and you keep me holding onChorus
