Tonight

The Big Pink

Tonight
You take of part of my lifeOnly lovers are left alive
Only lovers are on my side
Wasted days and wasted nights
Cause my dreams to slowly dieStand by me
Stand by my side
Change you love and make it mine
With your arms around me
I'm satisfied
Take me to your music
I'll come insideTonight
You take a part of my lifeTake that trip
Forget the world
Find those girls all made of gold
I've done a lot of things I know are wrong
So please forgive me
Before I'm goneTonight
You take a part of my life
