

# Queen of Entity

## Diablo

Welcome...

Welcome to my world of hate,  
damnation of my soul

Here we could be together  
with my dreams of death, you know!Tell me what you feel

My queen of entityWelcome...

Welcome to this bitter

state of my mind

I am dying dream

This is my imitation of life

Replica of sanity, yeah!Tell me what you feel

My queen of entityThis isn't love,

it's something else

Still you can't see

why my heart belongs to you

with all it's secraciesBut I hold the key just one more time  
and I open myself for you

But I hold the key just one more time

I would love to kill myself for... you.Tell me what you feel

My queen of entityThis isn't love,

it's something else

Still you can't see

why my heart belongs to you

with all it's secraciesBut I hold the key just one more time  
and I open myself for you

But I hold the key just one more time

I would love to kill myself for you, queen of entity!
