

# Passive Aggressive

## Placebo

It's in your reach  
Concentrate  
It's in your reach  
Concentrate  
If you deny this  
Then it's your fault  
The God's in crisis  
He's overIt's in your reach  
Concentrate  
It's in your reach  
Concentrate  
If you deny this  
Then it's your fault  
The God's in crisis  
He's overEvery time I rise I see you falling  
Can you find me space inside your bleeding heart  
Every time I rise I see you falling  
Can you find me space, find me spaceIt's in your reach  
Concentrate  
It's in your reach  
Concentrate  
If you deny this  
Then it's your fault  
The God's in crisis  
He's overEvery time I rise I see you falling  
Can you find me space inside your bleeding heart  
Every time I rise I see you falling  
Can you find me space inside your bleeding heart  
It falls apart  
It falls apart  
Falls apartEvery time I rise I see you falling  
Can you find me space inside your bleeding heart  
Every time I rise I see you falling  
Can you find me space inside your bleeding heart  
It falls apart  
It falls apart  
Falls apart
