

Alongside You

[Molly Jenson](#)

I wanna do away with Mondays
And make today the 4th of July
I wanna set up my place under the sky
I wanna great big black horse
That I can ride into town And I would show everyone
That never thought I could ride
I'd show them what I can do
Alongside you I wanna live in the ocean
I wanna float up to the stars
I wanna European accent
But you can keep the European car
I'll get right up on my house
And I will ride him into town And I would show everyone
That never thought I'd ride
I'd show them what I can do
Alongside you I wanna dance across the treetops
On my way out of town
I wanna wonderful life
Where nothing ever gets me down
What tomorrow brings, I'll be head on
So bring it on Alongside you
