When Will You Call

Bilal

Call me lady, call me
When you get a chance3 in the morn' tossing and turning it's late
Just can't rest waiting for the phone to ring
Will you call, ring my phone
Girl, I hope you did not forget meI can't sleep and I can't eat
And I won't until I hear your voice
When will you call?Three days ago, rolled over to an empty bed
And I went to the bathroom and your toothbrush wasn't there
Where's your clothes and where's your shoes
Girl, what will I do without youI can't sleep and I can't eat
And I won't until I hear your voice
When will you call?No notice, no letter, you just packed your shit and left girl
I deserve better, I treated you like no one else
How could you, you know I loved you
And I thought this was trueNow we're through, what I'm gonna do
Gotta start a new life without you
Now we're through, what to do
Got to start a new life without you
When will you callWaiting for ya call
Waiting for ya call
Waiting for ya call, baby
Waiting for you to just sing a word in my ear
And let me know that you're hear foreverBaby baby baby
Call me when you get a chanceCall me, call me, call
When will you call
For I've been worried 'bout you all night for a long time
Call me, call me, call
When will you callCall me, call me, call
When will you call
Get up and pick up the phone and let me know where you're atLet me know what you're doing
(Call me, call me, call)
Now were through
And I'm without you
