

# She's the One

## Dr. Feelgood

(dubas)She's the one, don't let her get away  
She's the one, believe me when I say  
She stole my love and know she's gotta payShe's the one, I'd like to let her go  
She's the one, 'cause I hardly know  
She stole my love and now she's gotta payIt's not right for her to run around  
She took my love and stomped it to the groundShe's the one, stole my love from me  
She's the one, but I won't set her free  
She stole my love and now she's gotta pay- guitar solo -It's not right for her to run around  
She took my love and stomped it to the groundShe's the one, stole my love from me  
She's the one, but I won't set her free  
She stole my love and know she's gotta pay
