

# Big Black Monster

Scott Weiland

You did not call when she was home  
You left while she was sleeping  
You left a note said that you went  
To get some cigarettesBut that was three long days ago  
What have you got to say?  
A big black monster flew right in  
You're stranded on me, babeAnother day, another way  
To sell your story to her  
Talking with, gets you nowhere  
Your voice falls on deaf earsAnd that was three long days ago  
What have you got to say?  
A big black monster flew right in  
You're stranded on me, babeDid you hear the monster come up?  
He came across your name  
Did you hear the monster come up?  
(You're crashing, you're crashing)Did you hear the monster come up?  
He came across your name  
Did you hear the monster come up?  
(You're crashing)You did not call when she was home  
You left while she was sleeping  
You left a note said that you went  
To get some cigarettesBut that was three long days ago  
What have you got to say?  
A big black monster flew right in  
You're stranded on me, babeDid you hear the monster come up?  
He came across your name  
Did you hear the monster come up?  
(You're crashing, you're crashing)Did you hear the monster come up?  
He came across your name  
Did you hear the monster come up?  
(You're crashing)Did you hear the monster come up?  
He came across your name  
Did you hear the monster come up?  
(You're crashing, you're crashing)Did you hear the monster come up?  
He came across your name  
Did you hear the monster come up?  
(You're crashing)
