

Who Cares

Socialburn

i'm a man, who cares that's my biggest flaw if i play by the rules i might make role call i'm not gonna let you or
anyone else break me again, cause i
can break myself i think it's time to make a stand

[chorus]

so if this is what you want i'll let you slip away if this is what you are i'll let you slip
away no matter how much it hurts i'll watch you walk away i'm a man who cares heart wide open some call me
a fake some call me a showman i'm not gonna let
them or anyone else break me again cause i can break myself i think it's time to make a stand

[chorus]

i'll watch you walk away [x2]
