Since the age of 14 I've been Jason Vorhees
Thinking about chopping the bodies into a for piece
Mamma in the kitchen cooking tacos out of horse meat
Flying 180 this shit forced me
They found me naked off the 494 East
Told 'em I was looking for meat and I'm a war beast
I said I was a renegade, ready to regulate on any day
This Hennessey, got me fucking feeling like I'm Hercules
Uncertaintly, lyrically performing surgery
Don't let me stay in the motherfucking emergency
Kelly Coppin I know you heard of me
Packin' a 30 piece
Rappin for like eternity
I, kept rapping cuz this is my only therapy
Saint Paul, the city in which they bury me
Sent here to do the devil's [?]
Sicfux we clip up and let us be
Tell these goons they gettin' zipped up tonight
Tell these dudes we dudes we gon' nip up their wives
Tell these fools they better walk towards the light
Cuz you damn motherfucker this is sick fucks for life [x2]
