

Valium Skies

The Verve

How do you keep yourself up for good?
Seems like the whole world is losing
How do you stop yourself from giving in?
Seems like the whole world is crying
She got all I need, she got all I need
Yeah the air I breath, yeah the air I breath
When it comes to my Valium skies
She don't mind if I cry
How did you stop your lover from crying?
Even though you knew she knew you was lying
How do you stop this world from loathing?
Still no knocking with all these cards I'm holding
She got all I need, she got all I need
Yeah the air I breath, yeah the air I breath
And when it comes to my Valium skies
She don't mind if I cry
She don't mind if I cry
She don't mind if I cry
She got all I need, she got all I need
Yeah the air I breath, yeah the air I breath
And when it comes to my Valium skies
She don't mind if I cry
And when it comes to my Valium skies
She don't mind if I cry
And when it comes to my Valium skies
She don't mind if I cry
