

I'm OK, You're OK

MxPx

What's going on tonight? Is everything alright?

I hope that nothing's wrong, I haven't seen you in so long
I'm away, you're here to stay and I'm away and
you're okay

You're here to stay and I'm away, you're here to stay and I'm okay
What exactly do you do, when I'm not with
you?

What exactly do you say, all the time that I'm away?
I'm away, you're here to stay and I'm away and you're
okay

You're here to stay and I'm away, you're here to stay and I'm okay

I'm away, you're here to stay and I'm away and you're okay

You're here to stay and I'm away, you're here to stay and I'm okay
You tell me nothing's wrong, seems like
I've been gone oh so long

Nothing seems to have changed, yet the familiar things seem all so strange
I'm away, you're here to stay and I'm
away and you're okay

You're here to stay and I'm away, you're here to stay and I'm okay

I'm away, you're here to stay and I'm away and you're okay

You're here to stay and I'm away, you're here to stay and I'm okay
I'm away, you're here to stay and I'm away
and you're okay

You're here to stay and I'm away, you're here to stay and I'm okay

I'm away, you're here to stay and I'm away and you're okay

You're here to stay and I'm away, you're here to stay and I'm okay
