

Until You

Dave Barnes

Let's just take our time
There's nothin' else to do
What better way to spend the night
Wastin' it with you Moon has won the war
Daylight waits to end
Stay here by my side we'll watch
The struggle start again I need you now and forever
To stay right here with me
Don't ever leave Love was kept from me like a secret
And I swore that I was through
Until you, until you City settle down
I watch you as you sleep
There's a silent celebration for
Every breath you breathe Now this all makes sense
With you as company
I left all I knew and found
A better part of me, yeah I need you now and forever
To stay right here with me
Don't ever leave Love was kept from me like a secret
And I swore that I was through
Until you The time it took to find you
I would wait again my baby
The feelings that I feel with you now, yeah I need you now and forever
To stay right here with me
Don't ever leave Love was kept from me like a secret
And I swore that I was through
Until you, until you
Until you, until you
