

# We Got Us (feat. Jussie Smollett)

## Empire Cast

We came out the darkness  
Been through every problem, we solved it  
We gotta keep our hope alive  
The greatest thing that came alive  
And if we keep it true to us  
Then we can take it much higher, let's go levels up  
Rebirth, lover affair, they flock together yo  
See what we can be, oh yeah, oh yeah Oh, we can be different together, we stand  
We got the power in all of our hands  
They build a castle, now we need to defend it  
Oh yeah, oh yeah, oh yeah  
Oh, tragedy stay try to break us away  
To spite it all, we grow closer that day  
We're all we got, in this to the end, yeah  
Oh, feeling so close but far away  
But you know you don't have to hesitate  
A bond so strong we'll never break  
You got me, I got you, we got us  
Only God knows that path we'll take  
Three of us together can make a way  
A bond so strong we'll never break  
You got me, I got you, we got us  
Gotta keep our heads high  
Sometimes all of our worlds collide, worlds collide  
And if we push it all aside  
Trust me, we'll be bonafide, certified  
And if we keep it true to us  
Just show a little more brother love, brother love  
We could bring the light up out the tunnel, y'all  
Hero that we need, oh yeah, oh yeah  
Oh, we can be different together, we stand  
We got the power in all of our hands  
They build a castle, now we need to defend it  
Oh yeah, oh yeah, oh yeah  
Oh, tragedy stay try to break us away  
To spite it all, we grow closer that day  
We're all we got, in this to the end, yeah Oh, feeling so close but far away  
But you know you don't have to hesitate  
A bond so strong we'll never break

You got me, I got you, we got us  
Only God knows that path we'll take  
Three of us together can make a way  
A bond so strong we'll never break  
You got me, I got you, we got us  
We got us, we got us, we got us  
All I know, all I love, all I trust  
Through it all, through the rough, that's the dust  
You got me, I got you, we got us  
We got us, we got us, we got us  
All I know, all I love, all I trust  
Through it all, through the rough, that's the dust  
You got me, I got you, we got us
