Earth

Geotheory

Baby behave, we'll make it work You're not golden and I'm getting tired Act like you own the place when really you've only just arrived I caught first glimmers in hides and skins Look who's all grown up, black swanning about the solar winds You're gonna lose it all and find yourself on your knees So get a grip and you might flow, reverse the great slow bleed I've tried patience but you always want a war This house won't tolerate anymore Stop this right away Put that down and clean this mess up End of conversation Put your back in it and make it up to me now The cold shoulder folded arms and looking up You've never listened, carry on careless regardless This is not a fire drill and if we hold any hope It's harmonic connection and stereo symbiosis These Legoland empires choking out my now You're everywhere, everywhere multiplying around me Child, a strain on my heart This rock can't tolerate anymore Stop this right away Put that down and clean this mess up End of conversation Put your back in it and make it up to me now Baby behave, we'll make it work Baby behave, we'll make it work

Baby behave, we'll make it work You're only what you give back Stop this right away Put that down and clean this mess up End of conversation Put your back in it and make it up to me now Stop this right away Put that down and clean this mess up End of conversation Put your back in it and make it up to me now Are you with me? Are you with me? You're only what you give back You're only what you give back
