Message from the Country (Remastered)

The Move

Here the roar a coming
Here the roar a coming
Here the roar a coming nowGot news for your mother
Got news for your mother
Got news for your mother tonightSister, I have touched the evergreen
And I promise that it's life should go unseen
Now it saves the birds upon the fire
And the message from the country rises higherHear the birdie calling
Hear the birdie calling
Hear the birdie calling for lifeMessage from the country
Message from the country
Message from the country rising highSister, I have touched the evergreen
And I promise that it's life should go unseen
Now it saves the birds upon the fire
And the message from the country rises higher
