

A Kind of Hope

Pilot Speed

I dreamed a garden full of light
just you and a man in white
And he tears the apples from your eye
just to allegate your eyes Wait for the moment
when night becomes sky
There's a shadow creeping through you
will it reach your heart and mine
standin' in the corner
to tired to fade
and you wanna take this with you
and you'll yearn to be set free
and you wanna take this with you
we'll be so free
And I've wasted words of love and faith
the meaning came too late
and now there's just whispers in the dark
just scars upon your heart
just scars Wait for the moment
when night becomes sky
There's a shadow creeping through you
will it reach your heart and mine
standin' in the corner
too tired to fade
and you wanna take this with you
and you'll yearn to be set free Cold dark cold
you hold onto
and the way is dark
and there's little to lose
Kiss tonight
a trap we spring
don't turn me out
I've gold to bring
a kiss goodnight
a trap we spring
don't turn me out
I've gold
I've gold to bring
Wait for the moment
when night becomes sky

There's a shadow creeping through you
will it reach your heart and mine
standin' in the corner
too tired to fade
are you holding on
is the situation dire
please don't stop
are you holding on
to situations dire A kind of hope you hold onto
when the way is dark
and you've little to lose
can you build a life
from on your knees
is the cross still weak
is the price you seek
