

# Sex On the Radio

## Good Charlotte

She's got a smile so sweet  
It's every little thing  
From her head down to her feet  
Out of the magazine  
And I see you on the TV I love the song she sings  
'Cause when I turn around  
It's like she singing to me  
And every word she means  
Like it could be about me She's sound to me  
She's sound like sex on the radio  
I love to hear her scream  
And when I push play  
She's screaming in stereo She's sound like sex on the radio  
She put sex on the radio  
Sex on the radio I knew that we would meet  
at one of those shows they do for the radio  
And when she look at me  
All I said was hello I took her out to eat  
'Cause we were in the city  
That neither one of us knew  
We never went to sleep  
'Cause when the sun came up  
We knew that we would have to go She's sounds to me  
She's sounds like sex on the radio  
I love to hear her scream  
And when I push play  
She's screaming in stereo She's sound like sex on the radio  
She put sex on the radio  
Sex on the radio She's sound like sex on the radio  
She put sex on the radio  
Sex on the radio I've got to admit, this feeling's a legit  
I don't wanna stop and she don't want me to quit  
But she gets a little nervous with what we do  
Scare what they would say  
What they would talk about if they knew Heard her sing a song  
Knew that she would write about it  
saw her in a magazine  
I knew that she could keep it quiet Keep it in the sheets  
The radio, the beats

Between you and me  
We'll throw away the key  
She's sound to me  
She's sound like sex on the radio  
I love to hear her scream  
And when I push play  
She's screaming in stereo  
She's sound like sex on the radio  
She put sex on the radio  
Sex on the radio  
She's sound to me  
She's sound like sex on the radio  
Feels like to me  
She's sound like sex on the radio
