

Children of the Night

Whitesnake

I'm getting ready
I'm in the mood to fool around
It's time for action
Now the boys are back in town So turn up the music
Make it loud and proud
Let's see reaction
Let the spotlight hit the crowd Don't hide what you feel inside
Don't let anybody stand in your way
Just let the music take you higher Now are you ready to rock
Children of the night?
Are you ready to roll
Children of the night? You got the power
I feel the fire in my soul
You got the fever
'Cause you were born to rock an' roll Don't run for cover
I'm gonna show you what I've learned
Just come a little closer
Come on an' get your fingers burned Don't hide what you feel inside
Don't let anybody stand in your way
Just let the music take you higher Now are you ready to rock?
Are you ready to roll?
Are you ready to rock? Now are you ready to rock
Children of the night?
Are you ready to roll
Children of the night? I'm getting ready
I'm in the mood to fool around
It's time for action
'Cause now the boys are back in town Don't hide what you feel inside
Don't let anybody stand in your way
Just let the music take you higher Now are you ready to rock
Children of the night?
Are you ready to roll
Children of the night? Are you ready to rock
Children of the night?
Are you ready to roll
Children of the night? Are you ready to rock, rock, rock?
Are you ready to roll
Children of the night? So just let the music take you higher
