

The Garden

Five For Fighting

Do you believe in the man in the garden?
Do you believe that he was there?
Do you believe in the man in the garden?
Do you believe or do you care?
Did he rise from the ashes and lead the sky above
Did he lie in the name of love in the garden
Do you believe in the path that you follow?
Do you believe it takes you where you want?
Do you believe in the lies that you swallow?
Do you believe it takes you where you go?
See the man, he never lies, he never will
Did he fight for the right to kill, in the garden, in the garden
There's a little man in a house alone waiting
He doesn't lie, he doesn't wait for love to hold on to
He doesn't lie, he doesn't wait
Johnny's in the garden, I see the err in my ways
In the garden, do you believe in the man in the garden?
