

Kill the Flaw

Sevendust

Suck it
It tastes so wrong it burns
(Inside of me)
I thought some meaning would break it
(Dead flames)
Feared I'd see it every day
I thought the feelings were sacred
Travel back from going nowhere
Reflect along the way
If I would have ever
Seen the signs of forever
Made us leave it all
Can you love at all
If I had another
Chance to show you
The other way to live for it all
Can you kill the flaw
(Fading out)
Just to end it
(Shaking)
From the sight that I'm seeing
(Hating)
Everything you'll always be
Find another reason to fake it
Travel back to where you're nothing
Reflect along the way
If I would have ever
Seen the signs of forever
Made us leave it all
Can you love at all
If I had another
Chance to show you
The other way to live for it all
Can you kill the flaw
If I would have ever
Seen the signs of forever
Made us leave it all
Can you love at all
If I had another
Chance to show you
The other way to live for it all
Can you kill the flaw
