

Sail Away

Connie Talbot

When the world drive you crazy
Caught up in the day to day and
The walls are closing in on you
When it feels like too much pressure
I can think of something better

Why not do what you want to do
Imagine yourself to be somewhere
else You might as well... oh yeah
Break out... Break free to where
You wanna be find out how it feels tonight

Sail Away Let the Music take you any Place
that you want Sail Away Disappear and
Let the Music play till it never stops

When you're down and you're feelin
Lonely feelin bad or sad's what ya don't need
a change of scenery would do just right
When you wanna write a different story
Every Day the same gets a little boring
Why not change it to what you like

Imagine yourself to be somewhere else
You might as well... oh yeah
Break out... break free to where you
wanna be find out how it feels tonight
Sail Away Let the Music take you
any Place that you want
Sail Away Disappear and Let the Music
play till it never stops

Imagine escaping to wide open spaces
As far as the eye can see Imagine tonight,
picture anywhere you'd like if that's where
wanna be

Sail Away Sail Away Let the Music take you
any Place that you want Sail Away
Disappear and Let the Music play till it

never stops
Sail Away Let the Music take you any Place
that you want Sail Away Disappear and
Let the Music play till it never stops

Sail Away
Sail Away
Sail Away
Sail Away
Sail Away
