

# Goodbye My Love

## Ragtime Revival Cast

You look away from me again  
There's really nothing to explain  
    Feel it in your kiss  
I guess this is good-bye my love  
The way I feel don't have a name  
The days and nights so filled with pain  
    Thought that I would stay  
But I gotta say good-bye my love  
    You used to laugh and say  
    If you play, play for gold  
I didn't know that I would lose my heart  
    And soul, I didn't know  
I won't regret the time we had  
I'll think of you and I'll be glad  
    But this is the end  
One last kiss and then good-bye my love
