

SOS

Sekai No Owari

For you, I'll sing this song
Please stay, to won't last long
Years we are long gone
The meaning will stay strong Silence is what this song's about
Numb to the world all around
But I will sing of this place
Hoping it finds you some way People needing to be saved
Scream out our help every day
But we grown numb to the sounds
And feelings slowly start to drown The first time, we can hear the voice
But soon it all becomes noise
Fading to silence in the end
I know it doesn't make sense,.
