

# Beyond Belief

## Fleshcrawl

Stop, bringin' me down, to the ground  
You, always you, I'll break your back  
Blind, to blind to see, reality  
Hope, all hope is lost, beyond belief  
Sacrifice, repeat the ritual  
Kill again, I can't resist  
None alive, destined to be  
The one who decides  
Retaliate, eye for an eye  
Psychomind, raptured you lie  
In your own mess, better off dead  
With the dreams you dread  
See the blackend skies, for a second you stare and  
Watch the world pass by, drowning inside  
Terror of my mind, I revel in your misery  
As commonly known life is about to die  
Cold embrace of death, as your body is lowering  
Save the piteous rest, your blood soaked soul  
Your crawling flesh has left, to a world beneath  
You kept the focus set, on things beyond belief
