

A Good Rain

[Dan Seals](#)

He is a farmer...
That's what he likes to do
So was his father... and his grand-dad too
He looks out on his fields and All the work he's done
Curses his luck and the unrelenting sun
His wife
Comes to his side, and says Hooooooooooooooooooooooooold Onnn
We've seen tougher times
And all we need is a good rain
And the troubles of this world
Will all melt away
We can start again
With help from the heavens
All we need is a good rain
